PROFESSIONAL SUMMARY

Cybersecurity professional with academic specialization in Architecture & Network Security and hands-on experience through a 3-month internship in Vulnerability Assessment & Penetration Testing (VAPT) and Security Operations Center (SOC) operations. Skilled in web application security testing, vulnerability assessment, network security analysis, threat monitoring, and security reporting. Proficient with Burp Suite, Nmap, Wireshark, Nessus, Metasploit, Kali Linux, and GitHub-based security projects. Passionate about identifying vulnerabilities, strengthening security posture, and contributing to modern cybersecurity operations.

TECHNICAL SKILLS

Cybersecurity: VAPT, Web Application Security Testing, Network Security Assessment, Security Monitoring, Incident Analysis, Threat Detection, Risk Assessment

Tools: Burp Suite, Nmap, Wireshark, Nessus, Metasploit, OWASP ZAP, Kali Linux

Networking: TCP/IP, DNS, HTTP/HTTPS, Routing & Switching, Firewall Fundamentals

Programming: Python, JavaScript, HTML, CSS

Platforms: Windows, Linux, Git, GitHub

EXPERIENCE

Cybersecurity Intern (VAPT & SOC)

Trios Cyber Technologies | 3 Months

- Conducted vulnerability assessments on web applications and network environments.
- Performed reconnaissance, enumeration, and security testing using industry-standard tools.
- Assisted in identifying and validating web application vulnerabilities.
- Participated in SOC monitoring activities and security event analysis.
- Investigated security alerts, reviewed logs, and documented findings.
- Prepared vulnerability reports and remediation recommendations.

PROJECTS

OSINT Browser Extension

- Developed a browser extension to streamline Open-Source Intelligence (OSINT) collection and analysis.
- Integrated multiple data sources to improve cybersecurity research efficiency.

End-to-End Encrypted Chat Application

- Developed a secure messaging application implementing End-to-End Encryption (E2EE).
- Ensured message confidentiality through encrypted communication workflows.

Email Automation System

- Built an automated email distribution system capable of sending personalized messages to multiple recipients.
- Automated communication workflows and recipient management.

EDUCATION

Bachelor of Science in Information Technology

Specialization: Architecture & Network Security

Gujarat University, Ahmedabad

Final Semester Completed | Degree

Award Pending

ADDITIONAL INFORMATION

- Strong analytical and problem-solving skills
- Passionate about cybersecurity research and threat analysis
- Languages: English, Hindi, Gujarati
